### Let There Be Peace On Earth – Lyrics

Let there be peace on earth  
And let it begin with me  
Let there be peace on earth  
The peace that was meant to be  
With peace our desire, family all are we  
Let us walk with each other  
In perfect harmony

Let this be the moment now  
With every step I take  
Let this be my solemn vow  
To take each moment and live each moment  
In peace eternally  
Let there be peace on earth  
And let it begin with me

## Milestones Of Freedom

Everyday we enjoy the benefits from the determination of America's founding leaders. The Milestones of Freedom program is designed to inform and instill the founding principles of our Nation in the minds of our citizens today. Through 10 different commitments that make up our personal contract with the USA as citizens, participants will learn the importance of America, the role we can play in it as individuals, and why it is vitally important to know that personal LIBERTY was such a critical element in our founding leaders resolve as they established our Nations governing documents. Citizens of all ages should often take advantage of the opportunity to be reminded and learn about 10 values that make up our founding freedoms.

The original documents that make up our governing foundation are key to the longevity of our Nation. While at the Milestones of Freedom, please take some time to see a replica of the Isaiah Thomas printing press that is similar to the John Dunlap press used to print the first copies of the Declaration of Independence. In 1776 this press was used to print more copies of the Declaration than any other. Come and learn more about this wonderful piece in our US history.

This is a wonderful opportunity to participate in something that is truly meaningful to us personally as citizens of the United States of America. Learn about the reasons we have our Constitution, pick up a copy of the Declaration of Independence and wander through the flags of The Healing Field to remember those who fought to keep those personal liberties and freedoms for each one of us individually.

## Utah's Fallen Heroes

The Utah 2015 Healing Field® display also posts solemn flag formations in tribute to Utah's fallen. These flags, posted to the west side of the Utah Freedom Memorial honor the military, police and firefighters who have sacrificed their lives serving us all since 2001.

We honor those in the armed forces that are casualties of the war on terror whether on or off the battle field. Every effort has been made to identify and honor all with Utah ties. However; if you know someone that we may have missed that should be recognized as one of Utah's Fallen please contact Colonial Flag Foundation.

**Healing Field Flag Memorial History** - It began as a simple way for one person to visualize and comprehend the sheer enormity of human loss that occurred in the terrorist attacks of September 11, 2001; however as hundreds of volunteers gathered to help, it soon became evident that something much more was emerging. It became a personal gesture of support, a tangible expression of mourning, and a very real healing experience. The powerful message of that experience spread across the country. Since that time the Colonial Flag Foundation was formed in order to help other communities host such an event. Hundreds of Healing Field® and Field of Honor® flag display events have been organized throughout the country and throughout the entire year as tributes of honor, celebration, civic pride and healing. These events raise awareness for a variety of charitable causes and have helped to raise millions of dollars to support their charitable efforts.

**Hope Rising – To Lift A Nation**, is a heroic-size (9ft) bronze monument that depicts the three firemen who raised the American flag at Ground Zero soon after the attacks on the World Trade Center in New York City.

The photograph of that poignant moment was captured by Thomas E. Franklin a photographer for The Record, a newspaper in North Jersey. World-renowned sculptor, Stan Watts, was granted permission to create a sculpture in the likeness of this photograph.

This monument will stand as a permanent reminder of a day we should never forget. It will serve as a fitting memorial for those we lost in the attacks of 9.11, and have since lost in the war on terror. Most importantly, it will stand as a symbol of the hope we felt on a day we lost so many... yet stood together.

**Utah Freedom Memorial** - The mission of the Utah Freedom Memorial Park Foundation is to proclaim that freedom is necessary for a happy, civil and prosperous society and hence, should be desired; that free societies are rare in human history and are worth defending and sacrificing for and that the cost of freedom is very high.

President Ronald Reagan put it this way: "Freedom is never more than one generation away from extinction. We didn't pass it to our children in the bloodstream. It must be fought for, protected, and handed on for them to do the same, or one day we will spend our sunset years telling our children and our children's children what it was once like in the United States where men were free."
