

## Our Mission

To liberate American Warriors by providing service dogs for PTSD and physical needs. To liberate and restore the Warrior's family unit by providing opportunities to relax, reconnect, and rejuvenate at Liberty Outpost. All done free of charge, at no cost to the Veterans

## About Us

We raise and train Labrador Retrievers to be gifted as service dogs to wounded Warriors. We have chosen to specifically select Labrador retrievers that are calm, intelligent, patient, obedient, and devoted. The dogs are also bred for their natural hunting ability. These service dogs' primary focus on their veteran and the tasks they perform for that veteran. They will also be capable of serving as hunting companions to those veterans who find healing through hunting and outdoor activities.

## Our Impact

Staff – 100% Volunteer  
-30 Dog fosters  
-8 Active trainers  
-5 Part time volunteers  
Distributed across 10 states

Service Dog Program  
-23 Custom service dogs placed

## Pups in the Community

Our pups are in the community being socialized from the time we receive them (at 8-12 weeks old), until the time they are paired with their Veteran. We focus on training our pups in similar environments they will be working in, thus desensitizing them to potential distractions and teaching them to focus solely on their handler.

## Our Veterans

Our Veteran selection process is simple. Veterans are recommended to us by a friend, directed to us by a partner organization, or learn about us through social media. Each veteran will visit with a member of Labs for Liberty regarding their needs, expectations, and qualifications for a service dog. A simple application is completed, including submission of their MOS, DD214 and disability designation per the VA. Upon application approval, a pup will be identified to meet the individual needs of the Veteran. The pup will then begin the process of socialization and training. The outcome will be customized service dog.

## Liberty OutPost

“Helping veterans and their families heal through vacation retreats.” Liberty Outpost, a 27-acre property in Morgan, Utah, has been converted into a vacation retreat site for combat Veterans and their families. Liberty Outpost will provide a place, free of charge, where combat veterans can vacation with their families or teammates. We provide a non clinical approach to healing by making it affordable for military families to vacation by eliminating the cost of lodging. It is our hope that by providing lodging in the beautiful Wasatch Mountains of Utah, Veterans can relax by experiencing the tranquility of the most beautiful valley in Utah.
